PRESIDENT'S MESSAGE

John Ostendorf, R-518

Dear fellow sales tax token collectors,

Happy New Year! This ATTS Newsletter is #200. That is quite an accomplishment for a small organization such as ours! In preparing this letter, I looked at some of our old Newsletters for perspective. We came from humble beginnings. ATTS Newsletter #1, published in March, 1971, was only four pages long but represented a sort of "passing of the torch" from previous sales tax token publications, the "Sales Tax Token Bulletin" and "Tax Token Tally" which operated more as price lists for Jerry Schimmel and Mike Pfefferkorn, respectively.

The ATTS grew quickly as many young numismatic organizations do. Then there were some lean years for sure. Today, we are still kicking and I hope there is always an ATTS. We owe a lot to the men who came before us like Jerry Schimmel, Jerry Bates, Mike Pfefferkorn, Merlin Malehorn, Tim Davenport, Richard Johnson, Bob Frye, Monte Dean, and I'm sure a few I have failed to mention. I want to also recognize all current and former officers who have had a part in keeping this organization running. Trust me, it hasn't always been easy.

Thanks to all of you who have renewed. We are a small organization; but without the ATTS, I don't know that any of us would get any sales tax token specific information. Jerry

Schimmel and I were in communication shortly before his death. He knew that I co-authored a book on food stamp tokens and was trying to persuade me to restart a food stamp collectors' organization. I wasn't interested in another volunteer job; but I understand why Jerry felt the need for such an organization. The hobby grows, or at least has a stable base, due to organizations such as ours.

Thanks to the ATTS, and in particular the ATTS Newsletter, we have a means to distribute information among fellow collectors, we know more about the history of what we collect, and we have a better idea of rarity and pricing. Trust me, none of that is true for food stamp token collectors because there has not been an organization dedicated to that field in about 40 years. Jerry was an avid collector and dealer of both. He understood how important the ATTS was to the field of sales tax token collecting and that's why he was always such a strong supporter of our organization. Thank you for continuing to be a part of it.

Happy collecting, John

2023 MEMBERSHIP DUES ARE NOW DUE!

You can pay via Paypal by sending **$25** for regular subscription (mailed newsletter) or $5.00 for electronic subscription (e-mail newsletter) to **jnlcalvert@gmail.com** or mail dues to **Jim Calvert, 769 Bracken Ln, Nipomo, CA 93444 Checks need to be made out to JIM CALVERT**

We very much appreciate your continued support and ask you to renew promptly so Jim does not have to send out reminder notices. Thanks for being a member of the ATTS!

The ATTS has reached a milestone as this is the 200th issue of the newsletter. I want to thank the membership as you have kept the organization viable. In this issue Joseph McCarthy shares his great sales tax purchases. Raybon Gilbert educates us on Missouri pattern sales tax tokens, a very interesting story about truly rare item. Ebay has a large number of sales tax items sold so our hobby is very active. I would like the membership to make a New Year's resolution to send an article or note about your sales tax collecting to me this year. I am sure every member

has something to report. I assume some of the items sold on Ebay ended up in the collection of some of the members.

I attended a presentation on sales tax tokens by Terry Caldwell in January at the Saddlebrook Coin Club (AZ). The information was new to some of the club members. The membership needs to educate others about sales tax tokens to create interest and keep the hobby viable.

For the 200th issue I will include the cover page and a short summary of the 1st, 50th, 100th and 150th issue which was suggested by our president. The 250th issue will be in 2045 and help is needed from the membership to reach that goal.

JOSEPH MCCARTHY (L-616) WRITES: Thought I would provide info on an Ebay (former) listing. The LOT placed was for Eight MPC's, 2 from Cleveland and 6 from Bedford Ohio. It had an opening bid that was very low. I placed a bid of $40.00 as a place keeper; it was over-bid by someones initial bid limit. In less than two days I received an Email from Ebay that the lot was withdrawn because of "AN ERROR IN THE DESCRIPION." At that point the Ebay info showed a bidder had a high bid of $300.00 before it was removed. The lot has not, and I am sure not going to ever reappear. However, I thought I should at least show the pictures I was able to get before it was removed. (ed. Lot sold on 14 NOV 22 for $1204.00)

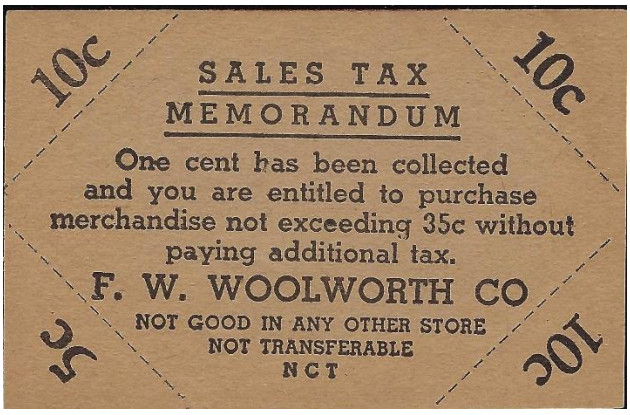
I just received my latest acquisition; a North Carolina L29 Sales Tax Memorandum. I acquired this by a private transaction. The cost was $35.00, which included shipping and sales tax. As can be seen from the scan, this is an unused L29. I already have two L29's, but they are each missing one or more numbers.



NC-L29

Over the weekend I received my latest acquisition purchased on eBay. It is, by Monte Dean 's book, an example of the SBC-670901 State Bracket Card that is in pristine condition. Although it shows the sales tax brackets that went into effect on September 1967, it is indictive of the way the sales tax was computed from its introduction.

"The full story, and nothing but the Whole story". The seller listed four SPC's at a "Buy It Now" price of $89.00, shipping $3.50, or "Make Offer." There were Two SPC4 cards that I was

interested in, but thought the price was excessive. So I made an offer and the seller counteroffered at $65.00 each, and said that was the best the seller would go. Although I still thought it high I accepted for the two shown in the scans. They are both SPC4 cards. What the major reason I accepted was the fact that the First one has a black stamp of S.S. Kresge Co., plus a second (Red) stamp giving an address in Columbus, OH. The Second card I "determined" was also a S.S. Kresge Co. card. There is One (Red) stamp on the card, but NO stamping of a Businesss name, however, the Red stamp carries the exact address as the first card. I know have Two cards for S.S. Kresge with a location in Columbus, OH. I have never seen a double stamped card before. Did I overpay? Probably, but the circumstances said buy.

PLEASE NOTE: If you are emailing me, I would greatly appreciate it if you would supply **your full name** and membership number. I have received an email from "Jack" and I don't recognize the name off-hand or the email address either. So in order for me to list it here I have to go through my entire email address book looking for "Jack". Likewise, if you don't include your return address on a snail mail, please give me your full name on the written enclosure. Thanks for saving me a little time. I do appreciate EVERY contact but this identification would also be appreciated. **My sincere thanks, as always.**

MISSOURI PATTERN SALES TAX TOKENS

By Raybon Gilbert R569

It is virtually impossible to research and enjoy our hobby without having an affinity for the history accompanying each Sales Tax Token one collects. The Patterns of Missouri that were minted in 1937, ostensibly by Osborne Register Company (Chits) for P5 through P8 we're inscribed with Forrest Smith's name on the Reverse of those tokens. Mr. Smith had entered politics in 1910 as a deputy assessor for Ray County. He held that title for eight years until the Governor appointed him to the Tax Commission in 1925. It is also interesting that Mr. Smith owned his own jewelry store in Richmond. In 1932 he was elected to the position of State Auditor. Later, in 1948 he ran for Governor and was sworn in on January 10, 1949.

So, quite a few folks knew him, given his history in public service, yet what makes for an interesting conversation, is that the Pattern Sales Tax tokens of P5 through P8 bearing his name were all misspelled! His first name of "Forrest" was erroneously spelled "Forest".

Again, since these Patterns are indeed rare, I became fascinated with them and decided to revisit the Pattern P5 and P6 specimens in my collection, and share a few words about them with our membership. As you know the patterns P5 and P6 from Missouri identified in M&D were sketches. Since, as of today, I own the only originals, (if anyone else has one please let me know, as they are listed as R10 Unique), I remeasured and catalogued them myself to affirm what the "sketches" revealed. First, P5 information was spot on. As for the P6 piece, I found and measured the round enter hole to be 3.5 mm. in diameter. Of course, both are aluminum as reported. I used different lighting in these examples to improve the detail.
Remaining catalogue information reported in M&D I found to be correct as reported.

A.T.T.S. Newsletter

Published by
The American Tax Token Society

Vol. I, No. 1 March - April, 1971

PRESIDENT'S MESSAGE

I am sure that many are wondering about this newsletter and how it came about. Your Board of Directors adopted this one in early March, and appointed Ernie Altvater as its editor, after considering the proposal made in the February **Tax Token Talley**. Rather than repeat the TTT proposal here, I suggest you re-read the one in your file. Ernie made the Board an offer which included the following: a typeset newsletter at the cost of postage alone (6¢ per copy), and which would be owned by ATTS. In considering a cost of 6¢ per copy, rather than a cost of 15¢ per copy as proposed by the TTT, even for a period of two issues, this newsletter will save the Society about $40.00 to $45.00 this year. This, in turn, will eliminate an anticipated deficit of about $35.00. That the newsletter could be typeset was a luxury we did not expect to have for some time, if ever. So it was an opportunity hard to pass up.

Ernie has been appointed for a test period of four months, and if no problems arise, will continue as editor through the constitutionally-required period (the end of January), when his appointment will be reviewed. As you know, Ernie has also been serving as ATTS publicity chairman.

Most of you have been receiving the **Tax Token Talley** for several months and have received the impression that it was the official journal for ATTS. I had hoped it might be, but the editor, a very good friend of mine, wished to retain private ownership. However, he did serve unofficially and assisted ATTS during the early months of its organization. For this we owe Mike Pfefferkorn a great deal of gratitude. I certainly urge members to subscribe to the TTT in addition to receiving this newsletter; the quality and scholarship will certainly remain high.

As we move along in our program, I want to express my hope that ATTS will be an organization for all collectors—even the guy who has only enough money for a collection of beat-up Missouri plastics should get something out of this, and he will be able to gripe or comment on things that concern him—he can get some swapping done, or maybe sell that old box of s.t.t.'s that's been sitting out in the garage since 1938. I hope this will come true for us. Let me know what you think any time.

Jerry Schimmel

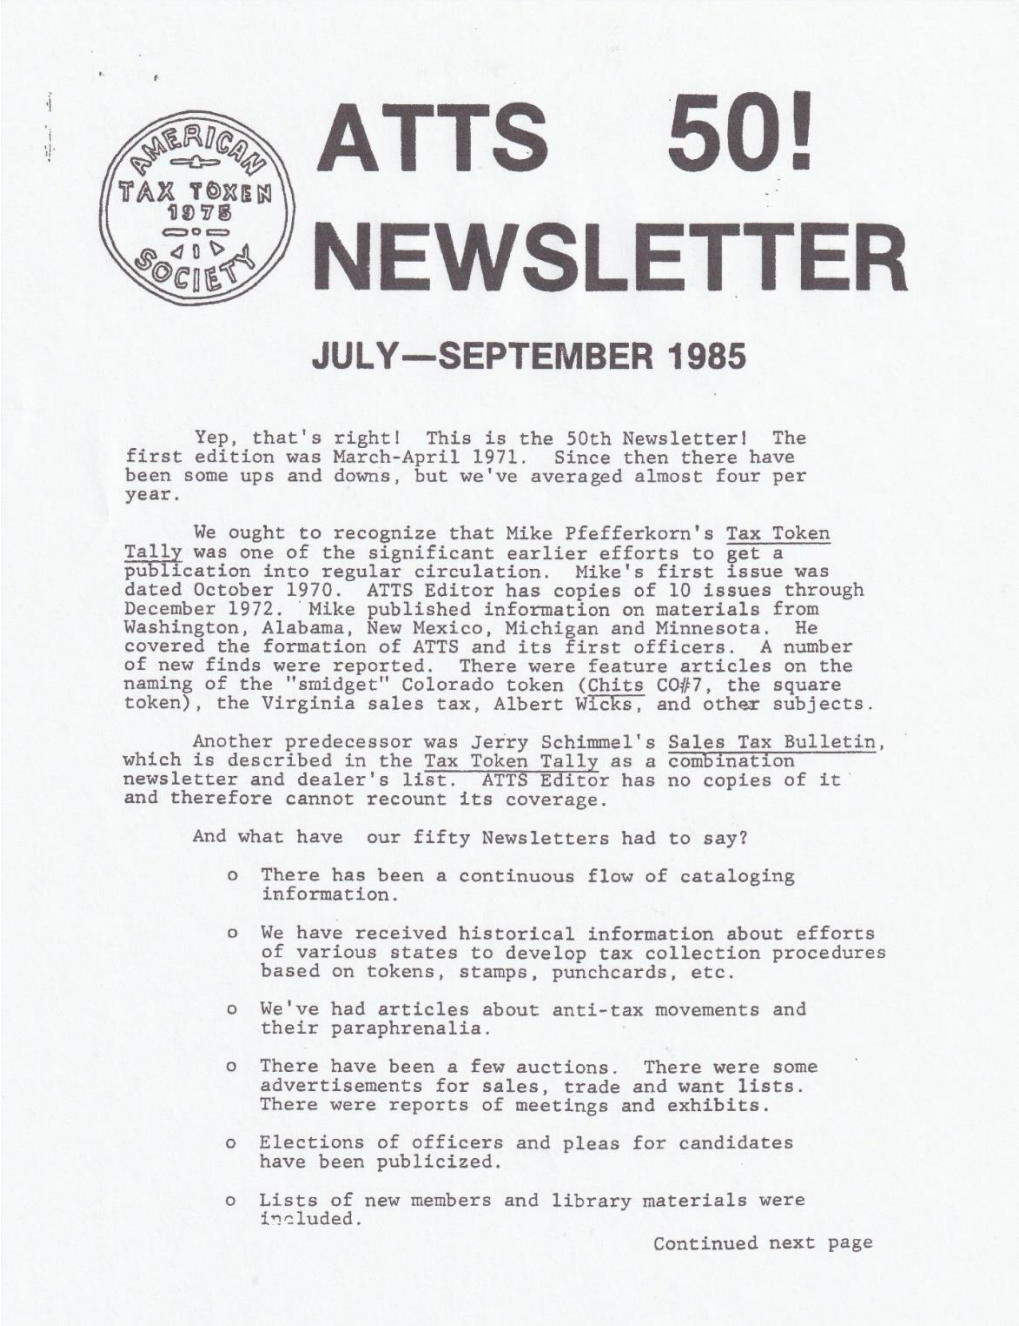
WE NEED A LIBRARIAN

Jerry Bates has made a suggestion well worth the consideration of our members. As time passes, more and more printed matter will come into the possesion of ATTS, and it would be practical to organize a society library now, before the task becomes too great.

If any member would like to volunteer to be the ATTS Librarian, or would like to nominate another member to that post, please contact the ATTS Board of Directors, c/o Jerry Schimmel.

The first is 4 pages long. The columns in the issue included a report on a planned meeting in the San Francisco Bay area, Mavericks, Membership Drive, New Listings, an article by Jerry Schimmel on the Michigan Grand Rapids milk top and the Kroger essays (both items have appeared on the Ebay listings in past issues, ed), New Members listing, Board Actions, Classified Ads and Cash Donations.

ATTS ISSUE NUMBER 50



ATTS 50!
NEWSLETTER

JULY—SEPTEMBER 1985

Yep, that's right! This is the 50th Newsletter! The first edition was March-April 1971. Since then there have been some ups and downs, but we've averaged almost four per year.

We ought to recognize that Mike Pfefferkorn's Tax Token Tally was one of the significant earlier efforts to get a publication into regular circulation. Mike's first issue was dated October 1970. ATTS Editor has copies of 10 issues through December 1972. Mike published information on materials from Washington, Alabama, New Mexico, Michigan and Minnesota. He covered the formation of ATTS and its first officers. A number of new finds were reported. There were feature articles on the naming of the "smidget" Colorado token (Chits CO#7, the square token), the Virginia sales tax, Albert Wicks, and other subjects.

Another predecessor was Jerry Schimmel's Sales Tax Bulletin, which is described in the Tax Token Tally as a combination newsletter and dealer's list. ATTS Editor has no copies of it and therefore cannot recount its coverage.

And what have our fifty Newsletters had to say?

- o There has been a continuous flow of cataloging information.
- o We have received historical information about efforts of various states to develop tax collection procedures based on tokens, stamps, punchcards, etc.
- o We've had articles about anti-tax movements and their paraphrenalia.
- o There have been a few auctions. There were some advertisements for sales, trade and want lists. There were reports of meetings and exhibits.
- o Elections of officers and pleas for candidates have been publicized.
- o Lists of new members and library materials were included.

Continued next page

The 50th issue is 16 pages long. After the introduction the topics were New Finds, Did You Know (list of past officers), Oregonians to Vote for 7th Time on Tax, Illinois Provisionals - - Continued, Oklahoma Odds & Ends, Toward a New Catalog – III, What About This, Field Work, Organizational Report and Trading Post.

EDITORS COMMENTS

As mentioned in the last newsletter, the Editor acquired what appears to be a new variety of the Utah Ingwersen box of 1 mill plastic tokens, which, as threatened, will now be discussed. The box has the border of UT-04, but line 3 ("Ingwersen...") is the left-most line, and the last line ("Denver...") is the same type size as the line above it. It has green print on a grayish brown box. See the illustration for more details, but note that it is reproduced here full size (in M&D the boxes are reproduced half size). It would appear that there could be nine different border combinations on the boxes, of which five are now known: 02 (1 mill); 03 (2, 5 mill); 04 (1, 5 mill). All of you, especially Mike Patton, who acquired a box from the same source, should examine your Utah boxes and see if you can find the missing varieties. It is entirely possible that the same (or similar) border combinations exist in other states, and for other manufacturers, so you should check those as well. I will report any results received in a future Newsletter.

Harvey L. Thamm (R-414) sent the Nebraska Petroleum Industries Committee cardboard, which is illustrated herein. It is a slightly darker shade of green than pea soup. As you can see it refers to a "sales tax of 36%." This was most likely an excise tax on gasoline rather than a general sales tax, especially as Nebraska did not have the general sales tax until 1967 and bragged about being "America's White Spot" because of that fact. The message appears fairly obvious, and apparently met at least one supporter, as "Taxoline" has been underlined in pencil. If anyone has any comments on the card send them to the editor and they will be printed in a future issue.

Thanks to everyone who sent something for inclusion in the Newsletter. I have a few short pieces by Merlin, as well as some Catalog Supplement Sheets, in reserve, so you know future issues will have at least some redeeming features. But I still need more copy, so if you do not send me something I will have to come up with it myself. You have been warned!

The 100th issue is 10 pages long. It starts with Editors Comments then comments by Merlin Malehorn on Missouri Milktop Reverse, Maryland, California and Osborne. Next is New Finds, Personal Stuff and Other Things, The Douglas G. Borden Collection, CARL Cochrane comments of his interest in collection sales tax token, the Financial Report, Missouri: Wright/Mack – A Second Loose End, Advertisements and a photograph of the arrival of Missouri plastic tokens.

Celebrating Washington's Centennial
Washington's Sales Tax Token
(1935-1951)
If you were born after 1950, you may never have seen (or heard) of a tax token like the one attached to this card. Tax tokens took several shapes between 1935 and 1951 when they were used in Washington State. The most popular was the aluminum token with a center hole. About 185 million of them were distributed.
Washington pioneered the issuance of tax tokens and survived a U.S. Treasury challenge of them as coinage. Originally tokens were worth 1/5 cent and later 1/3 cent. The first ones were printed on 1x2-inch lithographed paper for use until the metal coins were minted. During World War II metal tokens were replaced by dark green fiber and shiny green plastic ones. After the War, aluminum tokens were used once more.
Washington's residents found other creative uses for the tokens such as poker chips, washers, fishing tackle and as decorations on hat bands and students' shoe laces. Tokens also made excellent bulls-eyes in target practice.
Replaced by pennies in 1951, tax tokens are now a collector's item—especially the early editions and paper script.

TO OUR CUSTOMERS:
We no not want to raise our prices or reduce the quality of our products in order to include the Sales Tax. We realize that those customers paying 1c tax on 15c purchases would actually be paying the tax for the customer whose purchase was less than 15c. We have therefore adopted, under the approval of the California State Board of Equalization, this fair method of collecting a uniform and correct retail sales tax based on actual purchases, by giving our customers this redeemable coupon for the excess fraction of the penny collected.

TRADING POST

Deadline for Issue #201 = May 5, 2023

RULES:

CLASSIFIED All members may place a classified advertisement **free of charge** and may change it every issue if they wish. No limitations on word count as long as it stays within reason.
FOR SALE ITEMS: (1) Up to ten items (lots) per issue per member. **(2)** Fixed prices only - no trades or auctions. **(3)** Members may offer a fixed price WITH an Or Best Offer option if they desire to do so. **(4)** Sellers must list a preferred contact and type of payment accepted (Checks, Money Orders, Pay Pal), as well as postage costs, if any. **(5)** Sellers must accept returns on all sales for 10 days after customer's date of receipt. **(6)** Refunds to the customer do not include their return postage costs. **(7)** Each lot may include up to three photos**. (8) 10% of all sales** must be paid to Jim Calvert for the ATTS on an honor basis. Be SURE to let Jim know why you are paying him those funds when you send them. **(9)** Editor reserves the right to refuse or refine any For Sale Lot. I can't actually think why that would ever happen.
If you want to place an ad please contact me at wjmhands@gmail.com.
